The shareholders

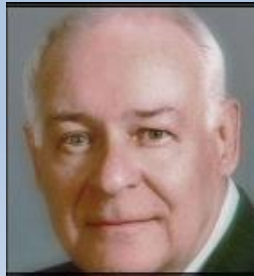

A small, eclectic group of individuals own shares in Kadon. No dividends are paid in money, only in having a part of the world's most unusual enterprise. Maybe in another 40 years it will be profitable, too.

Our first licenses

We have several times licensed our trademark, “Blockout,” for software games. At this time they are all out of print. Now Brainwright has licensed Roundominoes,iamond Hex, and Hexnut Jr. and produced them in very nice plastic in China. We have some samples here. They have been marketed in bookstores and other intellectually appealing outlets starting in 2014. Check them out.

To be continued...

Thanks for your attention and for being here
to share this landmark moment with us.

May the adventure of life continue
to be a happy one for all of you.

Here's to the next 40 years!
